

Experiment - 4

BHARATIYA VIDYA BHAVAN'S

SARDAR PATEL INSTITUTE OF TECHNOLOGY

Munshi nagar, Andheri (W) ,Mumbai - 400058

DEPARTMENT OF MASTER OF COMPUTER APPLICATION

CLASS: F.Y. MCA SEM: II

COURSE CODE: MC509 SUBJECT NAME: MOBILE PROGRAMMING LAB

ROLL NO./UCID : 2023510032

BATCH: B

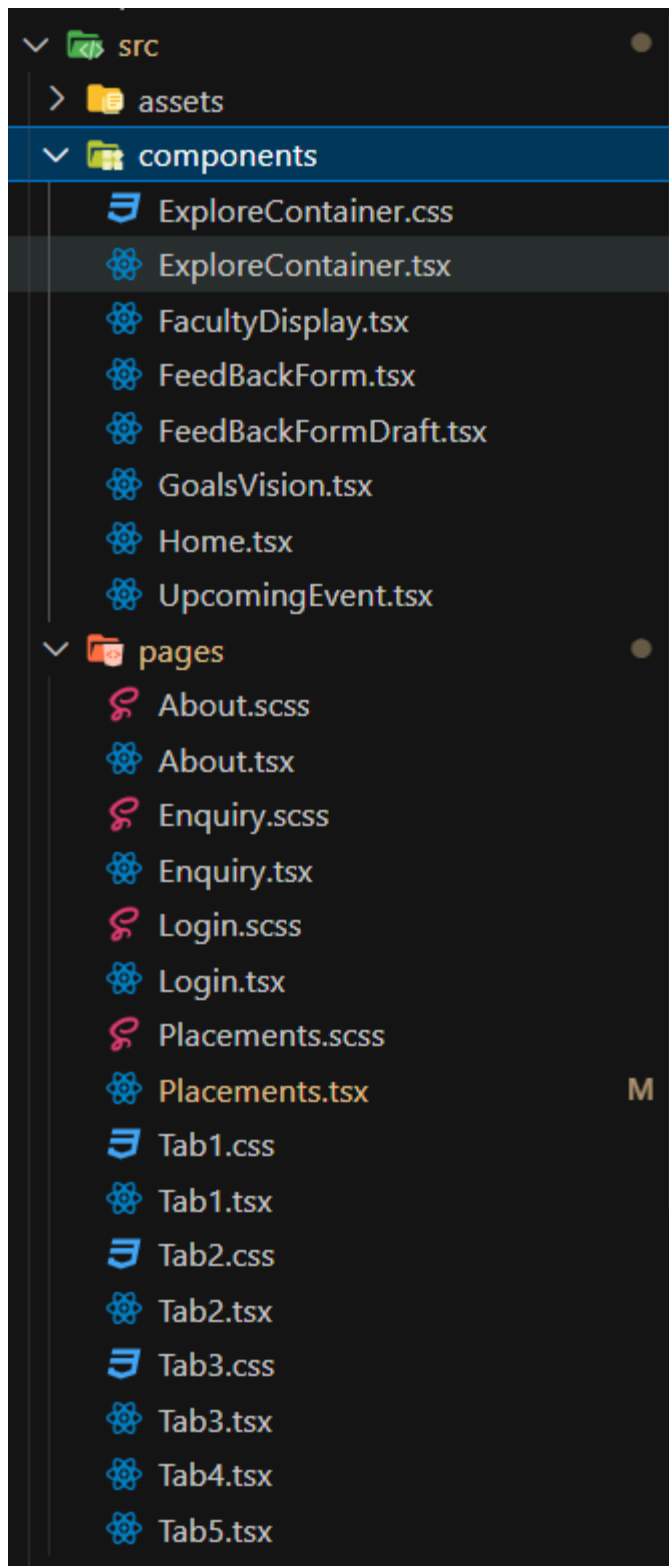

NAME: Durgesh Dilip Mandge

EXPERIMENT NO: 04

EXPERIMENT TITLE: To Create SPIT Website with side navigation

Tools Required: Ionic, VSCode

Files which are used for the application (.html, .scss, .ts etc) : .js

Code

Placement.tsx

```
import './ExploreContainer.css';

interface ContainerProps {
  name: string;
}

const ExploreContainer: React.FC<ContainerProps> = ({ name }) => {
  return (
    <div className="container">
      <strong>{name}</strong>
      <p>Explore <a target="_blank" rel="noopener noreferrer"
href="https://ionicframework.com/docs/components">UI Components</a></p>
    </div>
  );
};

export default ExploreContainer;
```

FacultyDisplay.tsx

```
import React from 'react';
import { IonContent, IonHeader, IonPage, IonTitle, IonToolbar,
IonList, IonItem, IonLabel, IonAvatar, IonCard, IonCardHeader,
IonCardTitle, IonCardSubtitle, IonCardContent } from '@ionic/react';
import "../style/Faculty.scss";
import Card from '../utilites/Card';
import AccordionWithImage from '../utilites/Accordion';
```

```
// Interface to define the shape of faculty member data
export interface FacultyMember {
  id: number;
  name: string;
  position: string;
  department: string;
  imageUrl: string;
  content: string;
  web: string;
}

const FacultyDisplay: React.FC = () => {
  // Sample faculty data
  const faculty: FacultyMember[] = [

Answers to the questions specified in respective lab on Moodle:

a. How to merge Side Navigation and Tabs in one app?:

We can utilize Ionic's routing and navigation system along with Ionic components.

b. List down Good Features of Existing App.

The existing app is visually appealing and has support for parents login as well. It has different tabs for many announcements like events , notices , admissions, etc.

c. List down the Drawbacks of Existing App.

The existing app lacks many features. The attendance and notification are coming soon. There are no important features like exams and results. About the college, its vision and mission are also not in app which is present in the website.

d. List down the Features you are including in your app for better improvement

I'm including the Enquiry feature and placements statistics as well as login page and about page.
